“We worked with Ciara and the Clayton & Company team to fully refurbish the public areas and Orangery Restaurant at Tewksbury Park. They were a delight to work with and five years on from completion of the project, we’re still receiving regular compliments about the style and standard of the furnishings at the hotel. We’ve been thrilled with the finished result.”

Claire White – Proprietor

Tewksbury Park Hotel

“We were delighted with the work carried out by Clayton & Company to create the interiors of our bedrooms and public areas, which are regularly complimented by customers. The team was professional and friendly, and the quality of the designs was excellent.”

John McCarthy – Director

Clevedon Hall

“We were delighted with the work that Clayton & Company did on refurbishing The Royal Crescent Hotel & Spa. It is always difficult when trying to upgrade such a historic and iconic building, but Claytons totally understood the brief and did a wonderful job of marrying traditional Georgian features with more contemporary fabrics and colours to give a fresh, modern feel to our rooms.

The team were a pleasure to work with, recognising the flexibility required to work around our guests and periods of high demand. At every stage we were kept up to date with costs and it was an added bonus when the whole project came in under budget.”
